Level 2

A NOTE ABOUT THIS BOOK

We created four levels of this workbook. Each level contains the same “Base” - History, Geography, Roots, Religion, and the Timeline along with the summary sheets for each unit. The Math and Grammar pages are broken into two levels.

The contents for each book are as follows. The grade levels are suggested so choose the level that is right for your child.

1st - 2nd Grade: The “Base” plus Math (Level 1), Grammar (Level 1), and Copywork (print)

3rd - 4th Grade: The “Base” plus Math (Level 2), Grammar (Level 2), and Copywork (choose print or cursive)

5th - 6th Grade: The “Base” plus Math (Level 2), and Copywork (cursive)

7th - 8th Grade: The “Base” plus Math (Level 2 for Units 10-18 only) and Copywork (cursive)

We assumed the upper levels (5th+) are doing more extensive math and grammar programs at home so we tapered off the amount of work in those subjects areas. For students grade 5th and above who would rather do copywork in print, we will have the files uploaded into Google Classroom for downloading.

This book was created with the following schedule in mind:

<i>Tuesday:</i>	<i>Wednesday:</i>	<i>Thursday:</i>
Scripture copywork	Poetry copywork	Latin copywork
Math	Math	Math
Grammar	Grammar	Grammar
History	Roots	Geography - unit quiz
Geography - practice map	Religion	Timeline

For each unit, the number of Grammar and Math worksheets varies. Sometimes one a day, sometimes more, sometimes none at all. If there's not a page present in the book, then you get to check it off your list anyways!

Also, the Religion worksheets cover three units at a time and appear twice in the workbook - Units 1-3 appears in Unit 2 and the review week, Units 4-6 is in Unit 5 and the following review week, Units 7-9 appears in Unit 8 and the review week.

Review weeks include only a few review worksheets. Those weeks, also finish any other worksheets that you didn't complete in the previous weeks.

FIRST TO-DO: Use the calendar on page 3 to fill in the date and unit number on each weekly checklist.

The Naming Of Cats

by T. S. Eliot

*The Naming of Cats is a difficult matter,
It isn't just one of your holiday games;
You may think at first I'm as mad as a hatter
When I tell you, a cat must have THREE
DIFFERENT NAMES.*

*First of all, there's the name that the family use
daily,
Such as Peter, Augustus, Alonzo or James,
Such as Victor or Jonathan, George or Bill
Bailey--
All of them sensible everyday names.*

*There are fancier names if you think they
sound sweeter,
Some for the gentlemen, some for the dames:
Such as Plato, Admetus, Electra, Demeter--
But all of them sensible everyday names.*

*But I tell you, a cat needs a name that's
particular,
A name that's peculiar, and more dignified,
Else how can he keep up his tail perpendicular,
Or spread out his whiskers, or cherish his
pride?*

...

Poetry II

The Tyger

By William Blake

*Tyger! Tyger! burning bright
In the forest of the night
What immortal hand or eye
Could frame thy fearful symmetry?
In what distant deeps or skies
Burnt the fire of thine eyes?
On what wings dare he aspire?
What the hand dare seize the fire?
And what shoulder, and what art,
Could twist the sinews of thy heart?
And when thy heart began to beat,
What dread hand? And what dread feet?
What the hammer? What the chain?
In what furnace was thy brain?
What the anvil? what dread grasp
Dare its deadly terrors clasp?
When the stars threw down their spears,
And watered heaven with their tears,
Did He smile his work to see?
Did He who made the lamb make thee?
Tyger! Tyger! burning bright
In the forest of the night
What immortal hand or eye
Could frame thy fearful symmetry?*

Grammar

A **clause** is a group of words with a subject and verb.

History

Athens and Sparta were Greek city states;
The difference between these two places was great.
The Spartans were strict, and they fought without fear,
Ruled by two kings, they held honor quite dear.
In Athens democracy was more in fashion,
And Athenians, too, could fight with great passion.
By four hundred five BC Athens felt bleak.
But the Peloponnesian Wars left both sides weak.

The Naming Of Cats

by T. S. Eliot

*The Naming of Cats is a difficult matter,
It isn't just one of your holiday games;
You may think at first I'm as mad as a hatter
When I tell you, a cat must have THREE
DIFFERENT NAMES.*

*First of all, there's the name that the family use
daily,
Such as Peter, Augustus, Alonzo or James,
Such as Victor or Jonathan, George or Bill Bailey-
All of them sensible everyday names.*

*There are fancier names if you think they sound
sweeter,
Some for the gentlemen, some for the dames:
Such as Plato, Admetus, Electra, Demeter--
But all of them sensible everyday names.*

*But I tell you, a cat needs a name that's particular,
A name that's peculiar, and more dignified,
Else how can he keep up his tail perpendicular,
Or spread out his whiskers, or cherish his pride?*

...

Poetry II

The Tyger

By William Blake

*Tyger! Tyger! burning bright
In the forest of the night
What immortal hand or eye
Could frame thy fearful symmetry?
In what distant deeps or skies
Burnt the fire of thine eyes?
On what wings dare he aspire?
What the hand dare seize the fire?
And what shoulder, and what art,
Could twist the sinews of thy heart?
And when thy heart began to beat,
What dread hand? and what dread feet?
What the hammer? what the chain?
In what furnace was thy brain?
What the anvil? what dread grasp
Dare its deadly terrors clasp?
When the stars threw down their spears,
And watered heaven with their tears,
Did He smile his work to see?
Did He who made the lamb make thee?
Tyger! Tyger! burning bright
In the forest of the night
What immortal hand or eye
Could frame thy fearful symmetry?*

The Naming Of Cats

by T. S. Eliot

*The Naming of Cats is a difficult matter,
It isn't just one of your holiday games;
You may think at first I'm as mad as a hatter
When I tell you, a cat must have THREE
DIFFERENT NAMES.*

*First of all, there's the name that the family use
daily,
Such as Peter, Augustus, Alonzo or James,
Such as Victor or Jonathan, George or Bill Bailey-
-
All of them sensible everyday names.*

*There are fancier names if you think they sound
sweeter,
Some for the gentlemen, some for the dames:
Such as Plato, Admetus, Electra, Demeter--
But all of them sensible everyday names.*

*But I tell you, a cat needs a name that's particular,
A name that's peculiar, and more dignified,
Else how can he keep up his tail perpendicular,
Or spread out his whiskers, or cherish his pride?*

The Tyger

By William Blake

*Tyger! Tyger! burning bright
In the forest of the night
What immortal hand or eye
Could frame thy fearful symmetry?
In what distant deeps or skies
Burnt the fire of thine eyes?
On what wings dare he aspire?
What the hand dare seize the fire?
And what shoulder, and what art,
Could twist the sinews of thy heart?
And when thy heart began to beat,
What dread hand? And what dread feet?
What the hammer? What the chain?
In what furnace was thy brain?
What the anvil? what dread grasp
Dare its deadly terrors clasp?
When the stars threw down their spears,
And watered heaven with their tears,
Did He smile his work to see?
Did He who made the lamb make thee?
Tyger! Tyger! burning bright
In the forest of the night
What immortal hand or eye
Could frame thy fearful symmetry?*

God's Grandeur

by Gerard Manley Hopkins

*The world is charged with the grandeur of God.
It will flame out, like shining from shook foil;
It gathers to a greatness, like the ooze of oil
Crushed. Why do men then now not reckon his rod?*

*Generations have trod, have trod, have trod;
And all is seared with trade; bleared, smeared
with toil;
And wears man's smudge and shares man's
smell: the soil
Is bare now, nor can foot feel, being shod.*

*And for all this, nature is never spent;
There lives the dearest freshness deep down things;
And though the last lights off the black West went*

*Oh, morning, at the brown brink eastward, springs -
Because the Holy Ghost over the bent
World broods with warm breast and with ah! bright
wings.*

History

The Roman Republic and Carthage were rivals,
In three Punic Wars, they fought for survival.
Phoenician-built Carthage was king of the seas,
But on land Roman legions beat Carthage with ease.
Though Hannibal's elephants o'er the Alps crossed,
Without reinforcements his gains were soon lost.
Victory at Zama earned Scipio praise,
And in one forty six BC Carthage was razed.

The Naming Of Cats

by T. S. Eliot

...

Of names of this kind, I can give you a quorum,
Such as Munkustrap, Quaxo, or Coricopat,
Such as Bombalurina, or else Jellylorum--
Names that never belong to more than one cat.

But above and beyond there's still one name left
over,
And that is the name that you never will guess;
The name that no human research can discover--
But THE CAT HIMSELF KNOWS, and will never
confess.

When you notice a cat in profound meditation,
The reason, I tell you, is always the same:
His mind is engaged in a rapt contemplation
Of the thought, of the thought, of the thought of his

His ineffable effable

Deep and inscrutable singular Name.

God's Grandeur

by Gerard Manley Hopkins

*The world is charged with the grandeur of God.
It will flame out, like shining from shook foil;
It gathers to a greatness, like the ooze of oil
Crushed. Why do men then now not reckon his rod?*

*Generations have trod, have trod, have trod;
And all is seared with trade; bleared, smeared
with toil;
And wears man's smudge and shares man's
smell: the soil
Is bare now, nor can foot feel, being shod.*

*And for all this, nature is never spent;
There lives the dearest freshness deep down things;
And though the last lights off the black West went*

*Oh, morning, at the brown brink eastward, springs -
Because the Holy Ghost over the bent

Area of a Rectangle

To find the area of a rectangle, use the formula **length x width = area**.
This formula is often written as **$l \times w = A$** .

The rectangle pictured here has a length of 10 cm and a width of 8 cm.

$$l = 10\text{ cm}$$

$$w = 8\text{ cm}$$

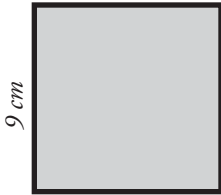

$$10\text{ cm} \times 8\text{ cm} = 80\text{ cm}^2$$

Note that the area's unit is written as cm^2 .

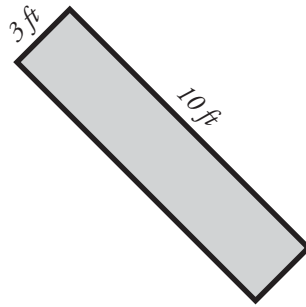

This is said as "square centimeters" or "centimeters squared".

Interjections in Dialogue: Tom Sawyer

Below is a passage from Mark Twain's "Tom Sawyer." Read it carefully and circle ten interjections.

Tom Sawyer: Chapter II

Tom went on whitewashing—paid no attention to the steamboat. Ben stared a moment and then said: "Hi-YI! YOU'RE up a stump, ain't you!"

No answer. Tom surveyed his last touch with the eye of an artist, then he gave his brush another gentle sweep and surveyed the result, as before. Ben ranged up alongside of him. Tom's mouth watered for the apple, but he stuck to his work. Ben said:

"Hello, old chap, you got to work, hey?"

Tom wheeled suddenly and said:

"Why, it's you, Ben! I warn't noticing."

"Say—I'm going in a-swimming, I am. Don't you wish you could? But of course you'd druther WORK—wouldn't you? Course you would!"

Tom contemplated the boy a bit, and said:

"What do you call work?"

"Why, ain't THAT work?"

Tom resumed his whitewashing, and answered carelessly:

"Well, maybe it is, and maybe it ain't. All I know, is, it suits Tom Sawyer."

"Oh come, now, you don't mean to let on that you LIKE it?"

The brush continued to move.

"Like it? Well, I don't see why I oughtn't to like it. Does a boy get a chance to whitewash a fence every day?"

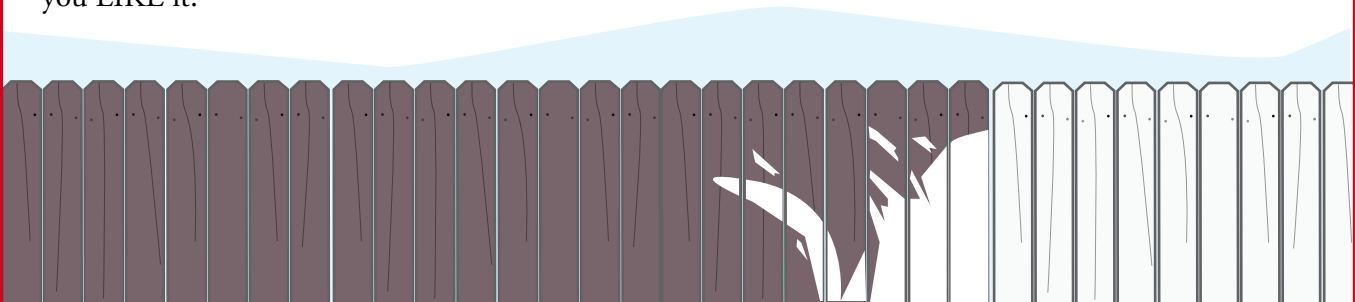

That put the thing in a new light. Ben stopped nibbling his apple. Tom swept his brush daintily back and forth—stepped back to note the effect—added a touch here and there—criticised the effect again—Ben watching every move and getting more and more interested, more and more absorbed. Presently he said:

"Say, Tom, let ME whitewash a little."

Tom considered, was about to consent; but he altered his mind:

"No—no—I reckon it wouldn't hardly do, Ben. You see, Aunt Polly's awful particular about this fence—right here on the street, you know—but if it was the back fence I wouldn't mind and SHE wouldn't. Yes, she's awful particular about this fence; it's got to be done very careful; I reckon there ain't one boy in a thousand, maybe two thousand, that can do it the way it's got to be done."

"No—is that so? Oh come, now—lemme just try. Only just a little—I'd let YOU, if you was me, Tom."

History

Unit 10 – Archaic Greece and Homer

The tales of the Iliad and Odyssey
Were recited by Homer in 8th Century BC.
These Archaic Greek poems, retold without cease,
Are why Homer is known as “the man who taught Greece.”

Unit 11 Greece and the Persian Wars

Against Persia Ionian Greeks took a stand,
And in 499 BC conflict began:
To conquer all Greece was king Darius' aim,
But Marathon brought brave Pheidippides fame.
At Thermopylae Xerxes thought victory complete,
But at Salamis Greek ships destroyed Persia's fleet.

Unit 12 The Classical Greek period

In Classical Greece great philosophers pondered,
And schoolboys all knew where Odysseus wandered.
In Athens democracy gave men a vote,
And poets recited great epics by rote.
Pythagoras figured and Socrates queried,
And over their sculptures the Greek masters tarried.
Greek thought from the 4th and 5th centuries BC
Has been cherished by scholars throughout history.

Unit 13 The Peloponnesian Wars

Athens and Sparta were Greek city states;
The difference between these two places was great.
The Spartans were strict, and they fought without fear,
Ruled by two kings, they held honor quite dear.
In Athens democracy was more in fashion,
And Athenians, too, could fight with great passion.
By four hundred five BC Athens felt bleak.
But the Peloponnesian Wars left both sides weak.

Unit 14 Alexander the Great

Philip the second of Macedon's son
Alexander was crowned when not yet twenty-one.
Bucephalus carried him east with his troops,
His sword cut the Gordian knot's famous loops.
The Balkans and Egypt, then Persia all fell,
His Empire with each year continued to swell.
At death the young conqueror was thirty-three,
A Hellenized world was his life's legacy.

Unit 15 The Republic of Rome

On the banks of the Tiber a wolf shared her home
With Remus and Romulus: founders of Rome.
Descended from Troy, rumored partly divine,
Romulus started a new royal line.
By five hundred BC a king ruled no more,
And consuls and senators came to the fore.
Res publica set forth a balance of power,
Cincinnatus' service was Rome's finest hour.

Unit 16 The Punic Wars

The Roman Republic and Carthage were rivals,
In three Punic Wars, they fought for survival.
Phoenician-built Carthage was king of the seas,
But on land Roman legions beat Carthage with ease.
Though Hannibal's elephants o'er the Alps crossed,
Without reinforcements his gains were soon lost.
Victory at Zama earned Scipio praise,
And in one forty six BC Carthage was razed.

Unit 17 Julius and Augustus Caesar

Julius Caesar commanded in Gaul,
And with the triumvirate sought to rule all.
The Rubicon crossed, civil war soon broke out,
But Pompey's defeat gave the Dictator clout.
Nobles and senators feared his great power,
The Ides of March brought the first Caesar's last hour.
Octavian triumphed, Mark Antony fell,
And Actium killed the Republic as well.
The first Roman Emperor took a new name:
Octavian Caesar Augustus became.

Unit 18 The Roman Empire

Pax Romana prevailed in the Empire of Rome,
One fifth of the souls in the world called it home.
Aqueducts, bridges, and roads intersected,
And arches and domes Roman buildings perfected.
Over Bethlehem town hosts of angels did sing,
Proclaiming the birth of a new baby King.
In catacombs, worshipers blessed and broke bread.
Though outlawed by Emperors, Christian faith spread.

Poetry I

The City Mouse and the Garden Mouse

By Christina Rossetti

*The city mouse lives in a house; -
The garden mouse lives in a bower,
He's friendly with the frogs and toads,
And sees the pretty plants in flower.*

*The city mouse eats bread and cheese; -
The garden mouse eats what he can;
We will not grudge him seeds and stalks,
Poor little timid furry man.*

The Naming Of Cats

by T. S. Eliot

*The Naming of Cats is a difficult matter,
It isn't just one of your holiday games;
You may think at first I'm as mad as a hatter
When I tell you, a cat must have THREE
DIFFERENT NAMES.*

*First of all, there's the name that the family
use daily,
Such as Peter, Augustus, Alonzo or James,
Such as Victor or Jonathan, George or Bill
Bailey--
All of them sensible everyday names.*

*There are fancier names if you think they
sound sweeter,
Some for the gentlemen, some for the dames:
Such as Plato, Admetus, Electra, Demeter--
But all of them sensible everyday names.*

*But I tell you, a cat needs a name that's
particular,
A name that's peculiar, and more dignified,*

*Else how can he keep up his tail
perpendicular,
Or spread out his whiskers, or cherish his
pride?*

*Of names of this kind, I can give you a
quorum,
Such as Munkustrap, Quaxo, or Coricopat,
Such as Bombalurina, or else Jellylorum--
Names that never belong to more than one
cat.*

*But above and beyond there's still one name
left over,
And that is the name that you never will
guess;
The name that no human research can
discover--
But THE CAT HIMSELF KNOWS, and will
never confess.*

*When you notice a cat in profound
meditation,
The reason, I tell you, is always the same:
His mind is engaged in a rapt contemplation
Of the thought, of the thought, of the thought
of his name:*

*His ineffable effable
Effanineffable
Deep and inscrutable singular Name.*

Poetry II

I dwell in Possibility

By Emily Dickinson

*I dwell in Possibility –
A fairer House than Prose –
More numerous of Windows –
Superior – for Doors –*

*Of Chambers as the Cedars –
Impregnable of eye –
And for an everlasting Roof
The Gambrels of the Sky –*

*Of Visitors – the fairest –
For Occupation – This –
The spreading wide my narrow Hands
To gather Paradise –*

Tyger! Tyger!

By William Blake

*Tyger! Tyger! burning bright
In the forest of the night
What immortal hand or eye
Could frame thy fearful symmetry?
In what distant deeps or skies
Burnt the fire of thine eyes?
On what wings dare he aspire?
What the hand dare seize the fire?
And what shoulder, and what art,
Could twist the sinews of thy heart?
And when thy heart began to beat,
What dread hand? and what dread feet?
What the hammer? what the chain?*

In what furnace was thy brain?

*What the anvil? what dread grasp
Dare its deadly terrors clasp?
When the stars threw down their spears,
And watered heaven with their tears,
Did He smile his work to see?
Did He who made the lamb make thee?
Tyger! Tyger! burning bright
In the forest of the night
What immortal hand or eye
Could frame thy fearful symmetry?*

God's Grandeur

by Gerard Manley Hopkins

*The world is charged with the grandeur of God.
It will flame out, like shining from shook foil;
It gathers to a greatness, like the ooze of oil
Crushed. Why do men then now not reck his rod?*

*Generations have trod, have trod, have trod;
And all is seared with trade; bleared, smeared with toil;
And wears man's smudge and shares man's smell: the soil
Is bare now, nor can foot feel, being shod.*

*And for all this, nature is never spent;
There lives the dearest freshness deep down things;
And though the last lights off the black West went*

*Oh, morning, at the brown brink eastward, springs -
Because the Holy Ghost over the bent
World broods with warm breast and with ah! bright wings.*
